REPAIR, MAINTENANCE & OPERATIONS**

REPAIR / MAINTENANCE

Trusted window for Networking excellence

THE IMPORTANCE OF REGULAR MAINTENANCE IN A PRODUCTION FACILITY

Plant machinery and equipment are significant investments, and regular maintenance can extend their lifespan and improve return on investment. A proactive maintenance strategy includes regular inspections, scheduled repairs, predictive maintenance using advanced technologies, operator training, and continuous improvement. This approach can enhance efficiency, reduce costs, and increase competitiveness.

EXPO LOCATION-PUNE

In addition to its strong supply chain and expertise in machined components across various industries, Pune, India, is a vibrant city renowned for its cutting-edge manufacturing capabilities. The city is rapidly becoming a hub for technological advancements and sustainable practices in the manufacturing sector. Automation, automotive, chemicals, defence, electronics, engineering, FMCG, IT, logistics, metal fabrication, pharmaceuticals, and textiles are some of the main industries represented here.

WHO SHOULD EXHIBIT?

Businesses that offer specialised products and services for industrial maintenance and repairs would greatly benefit from participating in the exhibition.

Inspection technology

Material analysis, condition, noise & vibration monitoring, diagnostic, thermograph equipment, gas & leak detection, ultrasound, calibration, testing & measuring.

Maintenance tools & equipment

Power, hand tools, pneumatic air tools, air compressors, heating refrigeration, water-jet cutting, storage & handling, transmission, scaffolding, lifting, & cranes.

Parts & consumables

Industrial spare parts, additive manufacturing, filters, bearings, oils & lubricants, surface corrosion treatment, welding

Environmental

Environmental energy advise, contamination water management, hazardous goods management

Smart Maintenance services

Contract maintenance, industrial field service & maintenance, industrial inspection, & cleaning, decontamination, retrofitting. Network & cloud, data analysis & management, sensor & robotics, ai, it services, cad/ cam, smart wearables, mobile applications.

Industrial engineering services

Improvement process Maintenance, shutdown management, quality management, mechanical engineering, electrical engineering, ISO certification.

Fire & water proofing, paints, corrosion, building maintenance & repairs contractors.

Safety & health

safety systems, height work protection, collision protection, PPE ergonomics, noise reduction, heat reduction, industrial fans, plant security, fire Prevention, disaster prevention & management, signs/ icons/ labels.

WHY EXHIBIT?

The show offers a distinctive opportunity for companies specialising in R&M to showcase their products and expertise in front of a targeted audience. The event increases visibility and fosters valuable connections within the industry. By participating, companies can effectively highlight innovative solutions and technologies that improve operational efficiency and minimise downtime for their clients, thereby positioning themselves as key players in the market.

Maximize efficiency and conserve resources

Engage with the comprehensive landscape of the manufacturing and engineering sectors in a single location.

Sales leads & genuine ROI

Three days dedicated to business, featuring a concentration of qualified sales opportunities in a single location.

Engaging directly with potential clients

Dedicated presentations to end users can effectively promote services. With a vibrant exhibition space and dedicated presentation areas, exhibitors will have the opportunity to engage with a highly targeted audience of maintenance personnel, industry professionals, and decision-makers.

Branding

We will outline partnership opportunities that will position your brand prominently in the minds of customers upon their arrival. comprehensive media spread across India to effectively engage the most relevant visitors. We are strategically engaging with the press and industrial publications to ensure you achieve optimal exposure.

WHO WILL VISIT?

Meet, interact, educate, demonstrate & conduct business:

- Head of Service Department from manufacturing private & public sector companies
- Maintenance Managers
- Shop-Floor Managers & Supervisors
- Industrial Associations & Technical Institutes
- Governmental officials
- Dealers and distributors of spare parts and accessories.

INDUSTRY SECTORS:

AUTOMOTIVE

AVIATION

BOILER

CIVIL

INFRASTRUCTURE

DEFENSE

ENERGY

FOOD & DRINKS

METAL

FABRICATION

MINING

OIL REFINERIES

OFFSHORE

DRILLING

PAPER

PHARMA

RAILWAYS

SHIPBUILDING
& REPAIRS

STEEL

SUGAR

TEXTILES

ABOUT US

Connect—Inform—Execute:

CKD Business Technology stands out as one of India's premier exhibition organisers, driven by a foundation of capability, creativity, commitment, and consistency. Leverage expertise in strategising, planning, and executing over 100 exhibitions.

Exhibitors and visitors now anticipate nothing short of a world-class exhibition from us. Our events showcase a diverse range of national and international industrial exhibitions and trade shows, covering industries such as engineering, machinery, machine tools, pharma equipment & machinery, and textiles, among others.

Our dedicated team of operational experts is renowned for consistently delivering reliable results. Exhibitors, sponsors, and visitors can expect unparalleled value for their investment in time and money at each of our events. There is nothing quite like a glowing recommendation from a happy customer to drive your business forward. We offer a diverse range of innovative ideas, leveraging the latest trends and styles to effectively fulfil your needs at any scale, all while staying within budget.

TARRIF

FABRICATED STALL:

RS. 12,000 PER SQ. MTR,

12 Mtr. (4m x 3m) with Standard Facility

(Front Maxima, Carpet, Name Fascia, 1-Table, 1-Round Table, 3-Chairs, 1-Plug, Single Phase 5/15, 4-Spot Light)

BARE SPACE:

RS. 11,000 PER SQ. MTR. Exhibitors need to construct design stall (Refer Exhibitors manual for guideline).

POSITION:

2 Side open (15% Premium on Basic cost)

3 Side open (20% Premium on Basic cost)

4 Side I-hand (25% Premium on Basic cost)

ADDITIONAL FACILITY:

Available at extra cost: Please refer exhibitors Manual.
